Article 5 of the UK GDPR states that personal data shall be:

- Collected for specific and legitimate purposes and processed in accordance with those purposes
- Adequate, relevant and limited to what is necessary for the stated purposes
- Accurate and, where necessary, kept up-to-date
- Retained for no longer than necessary, and
- Kept secure

In addition, Article 5 requires that the data controller shall be responsible for, and able to demonstrate compliance with, these principles (the accountability principle).

Processed lawfully, fairly and transparently

- The Trust and its schools provide clear and transparent information about why we process personal data including our lawful basis for processing in our privacy notices and policy documents.
- Our processing for purposes of substantial public interest are necessary to exercise our functions which are outlined in legislation.
- Our processing for the purposes of employment relates to our obligations as an employer.
- We also process special category personal data to comply with other obligations imposed on the School in its capacity as an educational institute e.g. the Equality Act.
- The Trust Board and Senior Leadership Teams across the Trust oversee policy work and monitors compliance in all areas of Information Governance, as outlined in its terms of reference.
- We carry out data protection impact assessments to ensure processing is fair and lawful.

Collected for specific, explicit and legitimate purposes

- We process personal data for purposes of substantial public interest as explained above when the processing is necessary for us to fulfil our statutory functions, where it is necessary for complying with or assisting another to comply with a regulatory requirement, to establish whether an unlawful or improper conduct has

occurred, to protect the public from dishonesty, preventing or detecting unlawful acts or for disclosure to elected representatives.

- We are authorised by law to process personal data for the purposes outlined above.
- We process personal data only when it is necessary and proportionate.
- If we are sharing data with another controller, we will document that they are authorised by law to process the data for their purpose. We implement data sharing agreements using the Humber Information Sharing Charter.
- We will not process personal data for purposes incompatible with the original purpose it was collected for. If we do use personal data for a new purpose that is compatible, we will inform the data subject first.

Adequate, relevant and limited to what is necessary for processing

- We collect personal data necessary for the relevant purposes and ensure it is not excessive.
- The information we process is necessary for and proportionate to our purposes. Where personal data is provided to us or obtained by us, but is not relevant to our stated purposes, we will erase it.

Accurate and kept up to date with every effort to erase or rectify without delay

- Where we become aware that personal data is inaccurate or out of date, having regard to the purpose for which it is being processed, we will take every reasonable step to ensure that data is erased or rectified without delay. The School has processes in place to help people do this.
- If we decide not to either erase or rectify it, for example because the lawful basis we rely on to process the data means these rights don't apply, we will document our decision.

Kept in a form such that the data subject can be identified only as long as is necessary for processing.

- All data processed by the Trust, unless retained longer for archiving purposes, will be retained for the periods set out in our retention schedules. The requirement for retention schedules is outlined in our Records Management and Data Quality Policy.
- We determine the retention period for this data based on our legal obligations and the necessity of its retention for our business needs.
- Our retention schedule is reviewed regularly and updated when necessary.
- We anonymise data when possible and this is covered in our training program.

Processed in a manner that ensures the appropriate security

- The Trust will carry out risk assessments taking into account state of the art technical measures, the costs of implementation and the risk/likelihood to individuals if a security breach occurs and the effect of any security breach on the trust itself.
- Both the Trust and its processors shall implement appropriate technical and organisational measures to ensure a level of security appropriate to the risk.

- When assessing appropriate organisational and technical measures, the Director of Trust Development and Compliance, Head Teachers, members of the Executive Team and the DPO will consult with other relevant services, such as ICT, Human Resources and Audit.
- Our Trust Board and the Trust's Senior Leadership Team meet regularly to ensure suitable information security governance is deployed throughout the Trust.
- We adhere to relevant safeguarding guidance, therefore most employees meet the threshold for having a Disclosure and Barring Service (DBS) check undertaken prior to commencing employment in the Trust.
- Our staff are trained in data protection matters and our contracts include confidentiality clauses.
- Technical security controls such as encryption are employed to secure sensitive information within systems.
- Role-based access controls are implemented to restrict access to sensitive data.

We provide clear and transparent information about why we process personal data including our lawful basis for processing in our privacy notices.
